

There being no objection, the material was ordered to be printed in the RECORD, as follows:

DEFENSE SECURITY
COOPERATION AGENCY,
Arlington, VA.

Hon. BOB CORKER,
Chairman, Committee on Foreign Relations,
U.S. Senate, Washington, DC.

DEAR MR. CHAIRMAN: Pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, as amended, we are forwarding herewith Transmittal No. 17-44, concerning the Air Force's proposed Letter(s) of Offer and Acceptance to the Commonwealth of Australia for defense articles and services estimated to cost \$815 million. After this letter is delivered to your office, we plan to issue a news release to notify the public of this proposed sale.

Sincerely,

CHARLES W. HOOPER,
Lieutenant General, USA, Director.

Enclosures.

TRANSMITTAL NO. 17-44

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act, as amended

(i) Prospective Purchaser: Government of Australia.

(ii) Total Estimated Value:

Major Defense Equipment* \$661 million.

Other \$154 million.

Total \$815 million.

(iii) Description and Quantity or Quantities of Articles or Services under Consideration for Purchase:

Major Defense Equipment (MDE):

Up to three thousand nine hundred (3,900) GBU-53/B Small Diameter Bomb Increment II (SDB II).

Up to thirty (30) GBU-53/B Guided Test Vehicles (GTV).

Up to sixty (60) GBU-53/B Captive Carry Reliability Trainers (CCRT).

Non-MDE: Also included in this sale are Weapon Load Crew Trainers (WLCT), Practical Explosive Ordnance Disposal Trainers (PEST), containers, support and ground crew test equipment, site survey, transportation, warranties, repair and return, maintenance, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor representative engineering, logistics, and technical support services, and other related elements of logistics and program support.

(iv) Military Department: Air Force (X7-D-YAH).

(v) Prior Related Cases, if any: None.

(vi) Sales Commission, Fee, etc.: Paid, Offered, or Agreed to be Paid: None.

(vii) Sensitivity of Technology Contained in the Defense Article or Defense Services Proposed to be Sold: See Attached Annex.

(viii) Date Report Delivered to Congress: September 29, 2017.

*As defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION

Australia—GBU-53/B Small Diameter Bomb Increment II (SDB II)

The Government of Australia has requested a possible sale of up to three thousand nine hundred (3,900) GBU-53/B Small Diameter Bomb Increment II (SDB II), up to thirty (30) GBU-53/B Guided Test Vehicles (GTV), up to sixty (60) GBU-53/B Captive Carry Reliability Trainers (CCRT). Also included in this sale are Weapon Load Crew Trainers (WLCT), Practical Explosive Ordnance Disposal Trainers (PEST), containers, support and ground crew test equipment, site survey, transportation, warranties, repair and return, maintenance, publications and technical documentation, personnel training

and training equipment, U.S. Government and contractor representative engineering, logistics, and technical support services, and other related elements of logistics and program support. The estimated total case value is \$815 million.

This sale will support the foreign policy and national security of the United States by helping to improve the security of a major non-NATO ally that continues to be an important force for political stability and economic progress in the Western Pacific. It is vital to the U.S. national interest to assist our ally in developing and maintaining a strong and ready self-defense capability.

The proposed sale of SDB II supports and complements the ongoing sale of the F-35A to the Royal Australian Air Force (RAAF). This capability will strengthen combined operations, particularly air to ground strike missions in all-weather conditions, and increase interoperability between the United States and the RAAF. Australia will have no difficulty absorbing this equipment into its armed forces.

The proposed sale will improve Australia's F-35 survivability and will enhance its capability to deter global threats, strengthen its homeland defense and cooperate in coalition defense initiatives.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Raytheon Missile Systems, Tucson, AZ. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government personnel or contractor representatives to Australia.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

TRANSMITTAL NO. 17-44

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex Item No. vii

(vii) Sensitivity of Technology:

1. The GBU-53/B Small Diameter Bomb Increment H (SDB II) is a 250-lb class precision-guided air-to-ground munition used to defeat moving or mobile targets through adverse weather from standoff range. SDB II has deployable wings and fins and uses Inertial Navigation System/Global Positioning System (INS/GPS) guidance, network-enabled datalink, (Link-16 and UHF) and a multi-mode seeker to autonomously search, acquire, track, and defeat targets from a standoff range. SDB II employs a multi-effects warhead for maximum lethality against armored and soft targets. Sensitive areas include operating manuals and maintenance technical orders containing performance information, operating and test procedures, and other information related to support operations and repair. The GBU-53/B SDB II hardware, including guidance, multi-mode seeker, and datalink, is UNCLASSIFIED. The software is UNCLASSIFIED.

a. SDB II Guided Test Vehicles (GTV) are telemetry test vehicles used for land or sea range based testing of the SDB II weapons system. The GTV have common flight characteristics of an SDB H but with an inert warhead. In place of the multi-effects warhead is a Flight Termination, Tracking, and Telemetry (FTTT) subassembly that mirrors the multi-effects warhead's size and mass properties, but provides safety flight termination, free flight tracking and telemetry, and transmission of encrypted data from the vehicle to the ground. The SDB II GTV can have either inert or live fuses. All other flight control, guidance, data-link, and seek-

er functions are representative of the SDB II. The hardware, including guidance, multi-mode seeker, and datalink, is UNCLASSIFIED. The software is UNCLASSIFIED.

b. SDB II Captive Carry Reliability Test (CCRT) vehicles are SDB II variants primarily used for captive flight reliability testing. The CCRT has common characteristics of an SDB II but with an inert warhead and fuze. The CCRT does not have an FTTT subassembly in place of the warhead; it instead uses ballast to mimic the warhead's mass properties. The CCRT is a flight capable representative of the SDB II and, although not its primary objective, could be dropped as a test round on ranges not requiring telemetry, digital tracking, or a Flight Termination System (FTS). All other flight control, guidance, data-link, and seeker functions are representative of the SDB II. The hardware, including guidance, multi-mode seeker, and datalink, is UNCLASSIFIED. The software is UNCLASSIFIED.

2. If a technologically advanced adversary obtains knowledge of the specific hardware and software elements, the information could be used to develop countermeasures or equivalent systems that might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

3. A determination has been made that the Commonwealth of Australia can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

4. All defense articles and services listed in this transmittal are authorized for release and export to the Commonwealth of Australia.

LAS VEGAS MASS SHOOTING

Mrs. FEINSTEIN. Mr. President, today I wish to voice my support for the victims of the horrific mass shooting in Las Vegas.

This mass shooting was the worst in our Nation's history. There are more than 50 dead and more than 500 wounded.

It should shock every American that one individual, with easy access to weapons and ammunition, can inflict such devastation.

Sadly, it was only a little more than a year ago that we also experienced what had then been the worst mass shooting in our Nation's history. That was when 49 people who were enjoying an evening of dancing with friends and loved ones were massacred in Orlando.

Just 6 months before that, 14 people were killed and more than 20 injured in San Bernardino.

Two years ago, on October 1, 2015, an assistant professor and eight students were murdered at Umpqua Community College in Roseburg, OR.

In 2013, 12 people were fatally shot at the Navy Yard, less than 2 miles from where I stand today.

On December 14, 2012, 20 children had their lives taken at Sandy Hook Elementary School.

These massacres have not and will not stop unless we do something. I believe we must acknowledge that these shootings are possible because of our Nation's weak gun laws.

Our laws permit criminal and domestic abusers to easily obtain weapons at gunshows and on the internet without a basic background check.

We know background checks work. States that require background checks on private handgun sales see fewer women killed by their partners and fewer law enforcement officers killed with handguns.

It is time we expand background checks to cover sales at gunshows and on the Internet.

We are still learning about what happened in Las Vegas, but we do know that the shooter had more than 10 rifles in his hotel room and that he may have used an assault weapon.

Today in the United States, military-style assault weapons may be sold legally to civilians. Assault weapons are not needed for either hunting or self-defense.

They are weapons of war designed to kill large numbers of people in close quarters.

This is not sustainable—and the public agrees. Just last year, a poll showed that 57 percent of Americans favor a ban on assault weapons.

In fact, from 1994 and 2004, we had laws that prohibited anyone from getting an assault weapon. I believed then and I believe now that those laws made all of us safer.

Unfortunately, right when the positive effects of those laws were taking effect, they were allowed to expire. Now, time and again, we have felt the costs of our inaction.

It is time that we finally take steps to ensure that other communities do not experience the pain that Sandy Hook, Washington, San Bernardino, Roseburg, Orlando, and now Las Vegas have gone through.

I hope my colleagues will join me in remembering the victims of this attack and will support legislation to prevent any of us from once again having to rise to remember what will be another worst mass shooting in our Nation's history.

ADDITIONAL STATEMENTS

60TH ANNIVERSARY OF THE CONNECTICUT STATE AFL-CIO

• Mr. BLUMENTHAL. Mr. President, today I wish to recognize the Connecticut State Labor Council AFL-CIO as they celebrate 60 years of extraordinary and exemplary advocacy on behalf of Connecticut workers and their families.

Since its formation in 1957 with the merging of the Connecticut Federation of Labor and the Connecticut State Industrial Union Council, the Connecticut State AFL-CIO has demonstrated an impressive dedication to the wellbeing of workers across the State. The organization seeks fair and equal treatment for workers through collective bargaining on their behalf and promoting legislation to create

good jobs and provide people with the skills needed for them.

Simply, they strengthen the middle class, allowing tens of thousands of people to own a home, raise their families, and retire with financial security.

Uniting workers and their families toward these common goals, the Connecticut AFL-CIO has fought continuously and ceaselessly for better wages, benefits, and conditions for the working families of the State. Throughout its six decades, the Connecticut AFL-CIO has facilitated union member access to insurance plans, credit cards, and beneficial mortgage programs.

Always looking for ways to raise the standard of living for our middle-class workers, the Connecticut AFL-CIO was one of the early leaders in the fight to achieve affordable and accessible quality healthcare, pay equity, and parental and medical leave for all employees. The Connecticut AFL-CIO also helps those who have lost their jobs, supporting fair unemployment compensation laws and education and job training programs.

Since its formation, the Connecticut AFL-CIO continuously puts the needs of workers and their families first. I applaud their numerous achievements and hope my colleagues will join me in congratulating the Connecticut State AFL-CIO on 60 years of service and commitment to Connecticut employees. •

TRIBUTE TO BRIGADIER GENERAL BOBBI DOORENBOS

• Mr. BOOZMAN. Mr. President, today I wish to recognize and congratulate an exceptional airman, Brig. Gen. Bobbi Doorenbos, on her selection for promotion to the rank of brigadier general in the Air National Guard. This promotion means she will leave behind her role as commander of the Arkansas Air National Guard's 188th Wing in Fort Smith, AR, to assume her new responsibilities in Washington, DC, as part of the leadership team within the Pentagon's Total Force Continuum Office.

Brigadier General Doorenbos clearly epitomizes the finest qualities of a military leader as evidenced by her distinguished career. After graduating from Iowa State University, she entered the U.S. Air Force in 1995 and initially served as an F-16 pilot in the Iowa Air National Guard's 185th Fighter Wing. She continued her honorable service by holding various positions in the Maryland, Washington, DC, and Virginia areas, including Air National Guard Crisis Action Team member; White House Fellow; executive officer/speechwriter for the Air National Guard Director; chief of Airborne Intelligence, Surveillance, and Reconnaissance; special adviser to Vice President Joe Biden for Defense Policy and Intelligence Programs; and chief of program requirements and integration at the National Guard Bureau. She has flown combat missions in support of Operations Noble Eagle, Southern Watch,

and Iraqi Freedom. Brigadier General Doorenbos is also a senior pilot with more than 1,200 flight hours in the F-16C Fighting Falcon and MQ-1B Predator.

She is truly a trailblazer. As the first female to command the 188th Wing at Ebbing Air National Guard Base in Arkansas, she simultaneously held the title of air commander with responsibility for over 1,000 Federal technicians, Active Guard, and Reserve members in the execution of three distinct mission sets: remotely piloted aircraft; intelligence, surveillance, and reconnaissance operations; and targeting. Her wing in comprised of the most dedicated, loyal, and highly trained airmen that the National Guard has to offer. As a team, they have taken immense pride in fulfilling their roles and obligations to the State of Arkansas and to the Nation. As a testament of Brigadier General Doorenbos's superior leadership, the 188th Wing was awarded the Air Force Outstanding Unit Award for its incredible accomplishments during her tenure as wing commander.

Brigadier General Doorenbos has displayed an extraordinary amount of dedication and passion throughout her life and career. As a mother of three daughters, it is my pleasure to watch Brigadier General Doorenbos excel in her career and show young women that they are capable of achieving anything. She will continue to be a major asset to the U.S. Air Force in her new role at the Pentagon.

I want to extend my sincere congratulations to her on this well-deserved promotion. I am very proud of her many accomplishments and wish her all the best in her future service to our country. •

TRIBUTE TO STEVE FARNHAM

• Mr. KING. Mr. President, today I wish to honor the service of an extraordinary individual in northern Maine. Mr. Stephen M. Farnham, of Mapleton, has been a driving force behind the Aroostook Area Agency on Aging. Steve began with the Aroostook agency in its infancy in the mid-1970s and is stepping down after having led the agency for the last 40 years.

Steve attended the University of Maine in Presque Isle, where he earned his bachelor of arts and went on to earn his master of public administration degree from the University of Maine in Orono. He also received a number of certificates and attended specialized courses that helped him continuously improve services and collaboration at the agency. While serving as an adjunct professor, he taught courses at public and private institutions in Maine, as well as health and safety courses with the American Red Cross. He also held many different positions with the Katahdin Area Council of the Boy Scouts of America, for which he has been recognized with multiple awards.

As chief executive officer of the not-for-profit corporation Aroostook Area
